COMPLETE

Price Book of Groceries

I wish every member to carefully examine the prices in this Book.

You will notice a great many articles much lower in price, especially Teas. I wish to call your special attention to my Number 15 Japan Tea at 43 cents. I have just received a large, fresh, new line of this Tea, 250 Chests; also my No. 3 Japan Tea, at 35 cents. These are Pure, Genuine Teas; also my Number 17 Young Hyson Tea, at 50 cents, and Number 7 Black Tea, at 53 cents; also Number 8 Black Tea, at 43 cents a pound. These Teas are the very best value I have offered to the Grange or any one else. Try them. I guarantee them 10 cents to 20 cents Cheaper than you can purchase elsewhere, and then you can rely on getting Pure Teas. I at all times try and send the very best article I can get. I put my Teas up in five or ten pound Caddies, Free of Charge, delivered, Freight Paid, to your nearest railway station in Ontario.

TRY JAMES' CHARM YEAST, for making Bread.

TRY JAMES' BAKING POWDER, for all kinds of Cakes, Puddings, Pancakes, Dumplings, and all kinds of Pastry.

PATRONS OF HUSBANDRY.

Gentlemen,—

My reason for sending out this complete price list is, that every member can read it for himself, and when he goes to the Lodge he can hand in his order for whatever groceries he may require. I think it will be quite an improvement, for when the members meet on the night appointed, there are so many price lists to go over and so much to be done, that it is impossible for each member to get a chance to see it for themselves, or even if the Secretary does read it over he cannot remember the prices. If any of the members live too far from the Secretary he can send direct to me for his goods. The only difference will be any member ordering direct must send money with the order, as it would be impossible for me to keep track of so many accounts. If they cannot send the money the order must then be sent through the Secretary and stamped, or a couple of neighbours could join together and send their order.

I understand some of the Secretaries have not shown my circulars that used to be sent to both Master and Secretary. Any of the members who wish my monthly circular can have one by sending to me for it; you can ship your butter and eggs or other produce direct to me and get the money or your groceries in return, or you can send to me for your groceries alone if you wish to do so.

If the members wish me to get dry goods for them when I am sending their grocery order, I will get what they want and send them along with my goods. I have had Granges who asked me to do so, it will be more convenient I will get what dry goods or any other articles you may require. I do this to accomodate my customers, as they wish me to do so in several cases, and it will be no extra cost, for they go along with my goods.

I want you to go through this price list **CAUTIOUSLY** and examine all my prices. Remember the quality is good and that makes a good deal of difference. Goods are sold according to their quality. The farmers who have used my groceries know well what they are. I could get certificates one mile long if it was necessary, but I do not require them, for my goods speak for themselves, and when they are not right all I ask is for the goods to be returned at my expense, so you see I have to be particular, for it does not pay me to pay freight both ways on goods that will not please.

I have had fifteen years experience in supplying the farmers, and I think I can tell pretty near what they want, **GOOD ARTICLES** at **BOTTOM FIGURES.** Whenever you are in want of goods send to me for samples of Teas and Sugars, and whenever you or any of your family are in the city do not fail to visit me ; come and see the warehouse, four flats, one hundred and seventy-five feet long each, and all full ; it will do you no harm, it will show you what a real wholesale grocery looks like, and then visit those other places who are pretending to supply all kinds of goods at wholesale prices, and what do you find ? a few articles, odds and ends, not as much in the whole store as is on one flat of my warehouse.

This can be proven by visiting Toronto ; don't forget to call ; do not be led off by a few parties who are interested in such places purchase your goods wherever you can get the best value for your money. That is the principle of the Grange ; that is the principle of man's nature ; look out for thyself ; let others do likewise for themselves ; every man for himself ; and those parties who sell for less than cost will have to make it up on other goods, just as sure as you are a living being.

I have heard a good deal about those men taking samples out through the country, showing and selling one class of goods and sending inferior goods in their place : and no wonder. Let every thinking man ask himself, who pays for those men coming around to see us, and who pays for the team of horses, hotel expenses and wages? We will leave out the **Drinks**, &c. At the very lowest calculation they cost from $4.00 to $6.00 per day. This I can prove ! Then, gentlemen, ask yourselves, how many Granges can they visit in one day ? And how many Lodges do they succeed in selling to? At times they go from one to another without selling a dollar's worth; sometimes there is not a member to meet this class of agents, and then they think the farmers have nothing else to do but to come and meet them whenever it suits them to send notices that they will be round such and such a day. This way of doing business will not do; it must be done by a three cent stamp, sent direct to the wholesale grocer, or dry goods, or any other wholesale firm you may wish to deal with. When you order goods from those parties who pretend to supply all kinds of goods wholesale, you have to wait two or three weeks for them before you get the goods, for the reason that those places do not carry any stock, and have to go to the wholesale dealer, and get what has been ordered. That is the reason you will notice that my goods are always shipped as soon as I get your order ; the date on my invoice is the day the goods are shipped.

We have an institution in Toronto trying to do a wholesale trade.

It seems to be carried on by some of the men belonging to the Dominion Grange; then they try to get a few members who belong to the Subordinate Granges to become members of the so-called Company in order to make them interested in the institution. Farmers, those Granges were started in order to do away with agents, and to do away with middle men, and to purchase direct from the wholesale trade and the manufacturers. What do we find? In your very midst the very men who were preaching to put down agents are now encouraging on the flow of agents. Ask yourselves for what reason? Because they see they are going to make a little money out of the Subordinate Granges. It is self; they are not studying the interest of the Granges. Those men want to make money. I do not blame any man for trying to make money, but when they are put in to govern the affairs of the Grange, they should do so, and when they are tired, let some other Farmer take their place, and not try to kill the working of the Grange by flooding the country with agents, the very thing that ought to be kept down. The Granges are going downwards, and no wonder; there are too many suckers! too many leeches at work! Farmers, use your own judgment, and do not be led off by a few men who are interested in those affairs got up purposely to make money out of the Granges, and work only for their own ends.

Some things look very nice on paper, but when you commence to digest them, they have a very different appearance. Be cautious, or the whole Grange business will be busted. The members must work together, and work shoulder to shoulder, for their own benefit, and there is no question about it, but that it is a great benefit to the Farmers to belong to the Grange. It keeps them posted in the way goods are sold, and at wholesale prices. It does a good deal of harm to the country merchant, and no wonder, he cannot make any money, for the Farmer knows the cost of the goods as well as he does.

What are the Grange principles? I think it is understood to do away with agents, or in other words, tramps, and to purchase direct from the wholesale trade, and save the money it takes to keep this class of gentry. That was the intention; what do we find? Now the country and Granges are pestered with agents belonging or connected in some shape, either in carrying samples or supplying goods, with two or three profits on their goods. To do business that way it would be just as well to purchase your supplies at home from your village store. If you want to keep the Grange healthy, purchase direct from the real wholesale, not from these persons who represent themselves as wholesale merchants, and have to go to the real wholesale to purchase and then add their profit. In such cases you pay

two or three profits, or more. By ordering your goods direct from James Lumbers you then can depend upon getting them at the very lowest wholesale prices.

I have now done business six years with Granges of Ontario, and this in itself speaks for the manner in which I have supplied the Granges.

I sell the Butter, Eggs and Poultry, Fruits, Pork, Lard and Hides, and in fact all kinds of produce, for the Granges, and have at all times tried to do my best, so that it keeps the trade together, and when it is a benefit to the Farmer, it is also a benefit to the Wholesale Merchant, as I sell the produce to my city customers. It is very little trouble for me to handle it. When you ship me any kind of produce, put on it who it is from, and at the same time write to me.

ANY MEMBER CAN SEND his Butter or other Produce direct to me if he chooses to do so. I have sold large quantities of Butter, Eggs, Turkeys, Geese, Pork, &c., this last year. When you ship Eggs only, sen l them in Egg-carriers. I can supply them at $1.25 each, freight paid.

I will also supply him direct with goods, if he wishes, in that way. My Teas, put up in 5 and 10 pound caddies. Try No. 3, Japan Tea, at 35c., and No. 15, Japan, 43c. The No. 15 has just arrived. It is without exception the **BEST VALUE** I have ever had in the shape of Tea. Send for sample. I have **two hundred and fifty** chests, each one 58 lbs. net weight.

Try JAMES' CHARM YEAST for Bread.

Try JAMES' BAKING POWDER for all kinds of Cakes, Puddings, &c.

NOTICE.

Any of your neighbours or friends belonging to the Grange can have one of those circulars by sending to me for it, or if you send the name or names, and post office addresses to me I will forward them one.

TEAS ARE STILL LOWER.

Teas are down lower than they have been for years. I have never seen them so cheap. **Beautiful Teas,** fine flavour and **Strong.** Send to me for samples. **No Trouble. No Charge** to send for samples of **Teas** before purchasing. I can supply you with **Tea** as low as it can be sold from the **Foreign Markets. My Teas are bought direct.** Test the quality and purity of my Teas. My **Teas** are **genuine** and will stand any test you like to give them.

Try my No. 15 **Japan** and No. 3 **Japan,** No. 17 **Hyson,** and No. 7 **Congou.** These **Teas** are **Choice Teas** and splendid value. If they don't go **ahead** of any **Tea** you can purchase elsewhere, I will pay all expenses in returning them.

These **Teas** are really **Extra Fine**, although my other **Teas** are liked by the majority of Tea drinkers, for the reason that they suit the palate better.

Remember my **Old Favorite Tea** No. 15 **Japan**, only 43c per lb. and my No. 3 **Japan** that has given so much satisfaction only 35c. per lb. All my other **Teas** are chosen with great care and judgment from the **Foreign Markets.**

Send for samples and try them for yourselves; don't be afraid; it won't cost you anything except a one cent post card.

I have several other kinds of **Teas.** I have about **thirty different kinds** and grades of Teas, so as to suit every one's taste. People differ so much in taste that it is a hard matter to please every one. I sell **Large Cargoes** of **Teas** each year, and if I only knew which kind you liked, I could please every man, woman and child in the Dominion; the only way is to send **direct** to me for samples of Teas and then choose the one you like best, then let your Secretary order it, or send to me direct for it with the money accompanying the order, and I will send it to you freight paid and no charge for **Caddies.** It would be better to get another to join you and order a half chest. The weight of the half chests of No. 15 **Japan** is 58 lbs. net., at 43c. per lb, and the half chests of No. 3 **Japan** weigh 55 lbs. net, at 35c. per lb.

Try No. 15 Japan Tea, at 43c.

DIRECTIONS FOR MAKING MY TEAS.

At all times **boil** my Japan Teas for five or ten minutes, but none of the others, only let them draw on the back part of the stove, and see that the water boils for a few minutes before you steep the Tea. The water must not boil too long, as it gets too hard for making a good cup of Tea.

Remember, when you get the genuine Raw Sugar, it is the purest and healthiest Sugar you can use. Do not purchase dark Scotch refined Sugars for Raw Sugars, as they are sometimes sold for Raw Sugars; you can tell by the smell and taste the difference.

The best Raw Sugar I have now is not so bright in colour on account of being New Cane Sugar, therefore it is moist and not so bright, but is the same quality of Sugar. When this Sugar dries out it becomes whiter.

I guarantee all these goods to be of the best quality, and if they are not as represented, can be returned at my expense.

You will also understand that these prices are subject to market changes.

I also wish to remind those parties who grow Fruit, that I sell all kinds of Fruit, such as Strawberries, Peaches, Plums, Grapes, Pears, Cherries, Raspberries, Huckleberries, Cranberries, Apples, Quinces and all kinds of Fruit grown, and sell by auction in Toronto on Mowatt's Wharf, next Wharf to Yonge Street Wharf. You will see the **Red Flag.** Send all Fruit to JAMES LUMBERS, Mowatt's Wharf, Toronto.
